

CHURCH IN THE WILD A "WILD SUCCESS"

The South-Central Synod of Wisconsin held its annual Church in the Wild event at Vermont Lutheran on Saturday, May 10th. Over 50 people attended the event during a spectacular spring day!

Attendees were provided with an introduction and orientation regarding the development of the Legacy Prairie and Woodland by Peter Antonie. For the next 90 minutes, with help from over 10 volunteers from our congregation helping, they explored the property, experiencing the beauty of God's Creation. This included moments of silence, meditation, bird songs, budding trees, a babbling creek, and quiet conversations with fellow hikers. The group later reconvened on the patio for a short worship service, where they shared their reflections on the wilderness experience and participated in communion.

Everyone expressed great appreciation for what we have done to preserve and enhance the property in such a short time.

What's Blooming in the Prairie?

June is a great month to visit the prairie as many of the plants are budding out....
Take a hike and see if you find any of these flowers.

Blue False Indigo

Golden Alexanders

Ohio Spiderwort
